
PORTFOLIO COLLECTIONS

XIAOXUE ZHANG

<http://miyukizhang.github.io>

I certify that the work included in this portfolio is my own original work. Work included which was conducted as part of a team or other group is indicated and attributed as such the other team members are named and a true description of my role in the project is included.

A handwritten signature in black ink, appearing to read "Xiaoxue Zhang". It is written in a cursive style with a long horizontal line extending from the end of the signature.

CASE 1: TUDIBANG

A QUESTION & ANSWER PLATFORM ABOUT AGRICULTURE TECHNOLOGY

This is a platform designed for farmers and agronomists, where questions about crop planting, pest control, fertilization techniques and so forth can be asked. Afterwards these question will be answered by agriculture professors. This project is the few websites in China aiming at helping the traditional agriculture industry.

I was responsible for the front-end development.

Date: 2014.8 ~ 2014.11

Tags: HTML, CSS, JS

Detail: <http://miyukizhang.github.io/index.html#portfolio&work1>

CASE 2: UR

TENCENT QUESTIONNAIRE SYSTEM

It is a system where you can create questionnaires, collect responses and manage data analyses.

In the project, I helped design and took charge for the front-end development.

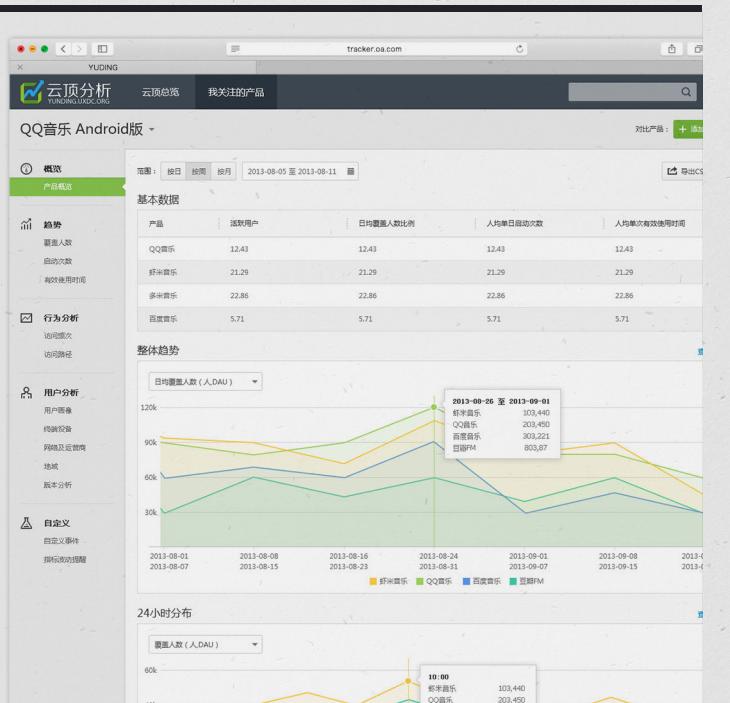

I applied MVC patterns, with the assistance of backboneJS. I decided to use this front-end architecture, because almost all the operations in the editing page should be processed in only one page.

Date: 2014.8 ~ 2014.11

CASE 3: TRACKER

ANALYSIS OF USER BEHAVIOR

In the project, I participated in the design at times and utilized SEAJS to solve the problem of the namespace and the file dependency. I also automatically executed the minification, combination and other repetitive tasks with GRUNTJS.

For a large number of interactive charts to visualize data, I managed to use JavaScript charting engine-Highcharts and created my own charts to achieve the goal. During the process, I also extracted a module to customize the graphs in the Highcharts, which has been utilized into other projects.

Date: 2013 ~ 2014 (including 2 version)

Tags: HTML, CSS, JS

Detail: <http://miyukizhang.github.io/index.html#portfolio&work3>

CASE 4: INTERVIEW

A MOBILE WEB APP FOR INTERVIEWERS

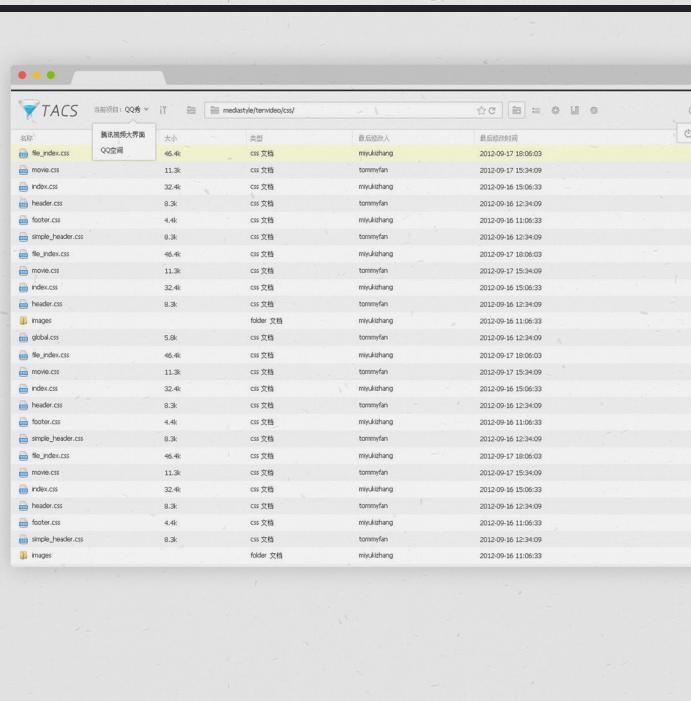

This is a project for the promotion in weixin, which is a single web page. It is compatible in almost all the popular smart phones.

Date: 2014-9

Tags: HTML, CSS, JS

CASE 5: TACS

A COMBINE & COMPRESS TOOL

I was in charge of the design and the front-end development in the project.

The project had certain HTML structures, which would be better to be changed as less as possible. So I should transform the design into HTML according to the original structures. It's conceivable that I encountered numerous limitations and thus I had a hard time to achieve the goal. Therefore, I utilized many CSS3 pseudo-elements to change the structure to reach the effects of the design.

Date: 2013-10 ~ 2013-11

Tags: Design, HTML, CSS

Detail: <http://miyukizhang.github.io/index.html#portfolio&work5>

CASE 6: EXPERIENCE CENTER

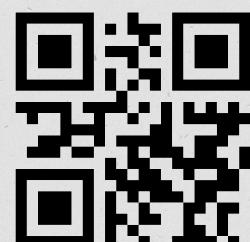

A PLATFORM FOR NEW FEATURES OF SOFTWARE AND APPLICATION

The system provides users a platform to download the latest beta softwares and applications to experience the new features in advance.

I was in charge of the front-end development.

Date: 2013-10 ~ 2013-11

Tags: HTML, CSS, JS

CASE 7: DOODLE

A HTML5 CANVAS APPLICATION

The experiment was inspired by the children's painting books and was achieved by the technology of HTML5 Canvas.

It was totally developed by myself in my spare time.

Date: 2011-10 ~ 2011-11

CASE 8: FCUI

A JEWELLERY DISCUSS PLATFORM

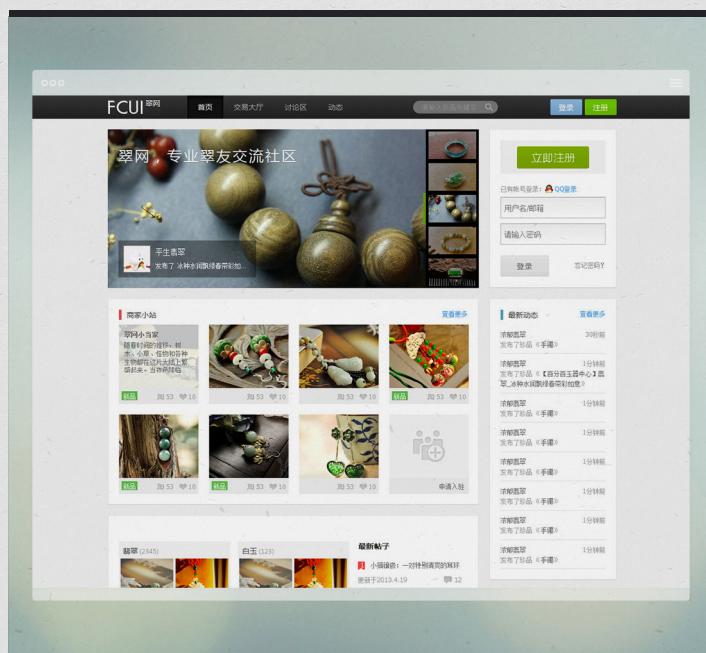

This system provides a platform for discussion about jade, jewelry and so forth.

I've took charge for the design and the front-end development.

Date: 2012-6 ~ 2013-6 (including 2 versions)

我爱涂鸦

我爱涂鸦

某次家中小伙伴拿涂料不小心弄到我的衣服，我萌生了制作一个可以绘图的的想法。
这由得想一基于HTML+JS的绘图程序，用户可以使用鼠标操作，而且本地保存。同时通过Ajax将绘图数据发送到服务器，进行渲染从而在地图上显示出来。由于是基于Web的，所以使用的是开源的，跨PC端、移动端的移动框架可以很方便的同地图引擎应用。
